### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Closest art is 6,229,036. Closest art teaches a method of preparing mercaptosilanes using triethylamine as the acid scavenger. The difference between instant claims and the process of '036 is that '036 uses filtration to remove the insoluble HCl amine salt from the reaction mixture, while instant claims are directed to a process involving an aqueous wash. Adding water to a mercaptosilane is against the teachings of the art. Mercaptosilanes are reactive with water (see US 6,147,242) and one skilled in the art would not view an extraction as a suitable method of removing the salt.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yevgeny Valenrod whose telephone number is 571-272-9049. The examiner can normally be reached on 8:30am-5:00pm M-F.
